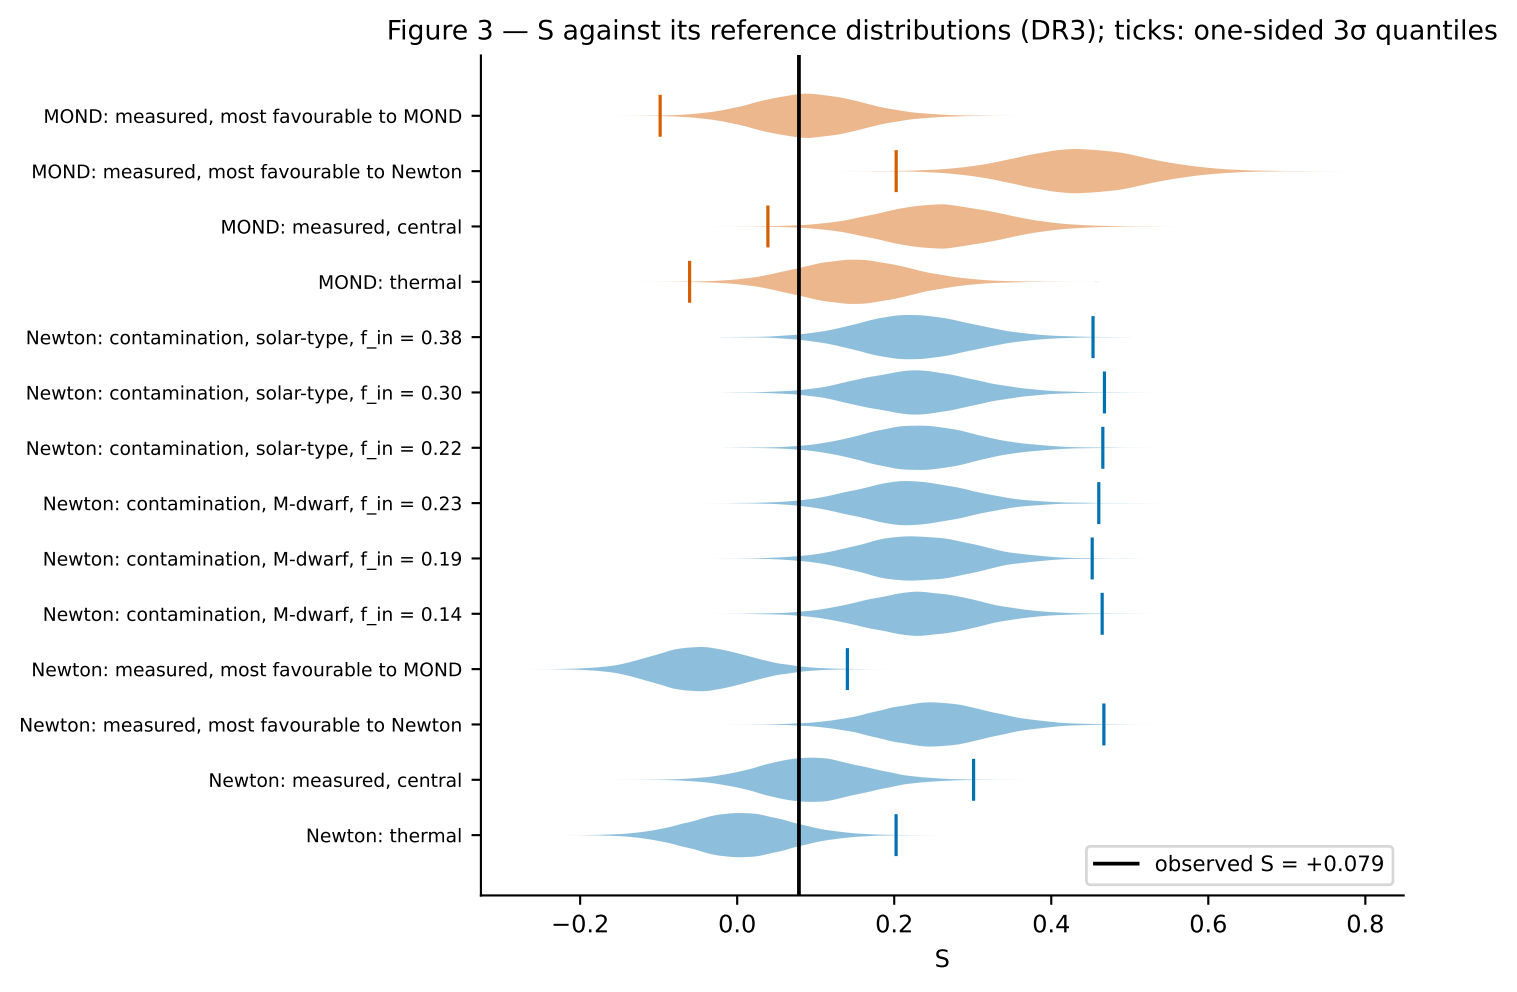

Figure 3 — S against its reference distributions (DR3); ticks: one-sided 3σ quantiles
MOND: measured, most favourable to MOND
MOND: measured, most favourable to Newton
MOND: measured, central
MOND: thermal
Newton: contamination, solar-type, f_in = 0.38
Newton: contamination, solar-type, f_in = 0.30
Newton: contamination, solar-type, f_in = 0.22
Newton: contamination, M-dwarf, f_in = 0.23
Newton: contamination, M-dwarf, f_in = 0.19
Newton: contamination, M-dwarf, f_in = 0.14
Newton: measured, most favourable to MOND
Newton: measured, most favourable to Newton
Newton: measured, central
Newton: thermal
